Subject: Draft OPP Update for Aldicarb and Strep Citrus
Attachments: Draft Aldicarb and Strep Citrus OPP Update.docx

Importance: High

Hi Everyone,

Please see the attached for the draft announcement for the two upcoming registrations for citrus. Please provide your edits and comments as soon as possible. There is a short deadline for comms materials and I can envision that these will go back and forth a few times today.

We will also need some internal Q&As for each a.i. We had some draft ones for aldicarb (need your feedback, Aldicarb Team) and will need a few for streptomycin. Guidance for developing Q&As:

When writing questions, try to put yourself in the shoes of the press, the regulated community, or a concerned citizen. Think about the questions they would most likely have about the action being taken. Answer the questions in simple terms and concise sentences. Try to keep answers under 100 words.

Please let me know if you have any questions.

Thanks,

Dian D. Overbey
